

KEY
POINTS

ON DOMESTIC VIOLENCE

Not necessarily seen as a woman's problem, but rather as a private problem that others shouldn't get involved in.

Feminist movements have put it to the forefront.

**ON THE HISTORY OF
EQUALITY**

Students must understand that some achievements on equality are very recent in France (right to vote, work, etc. from the 1950s-60s).

Progress only comes from collective mobilisation

**ON HELPING WOMEN
FACING DOMESTIC
VIOLENCE IN LOCK DOWN**

Be aware of what happens near you and don't be afraid to condemn acts of violence.

Communicate about ways to get help on social media and remember violence can happen to all women.

ON FEMINISM

Many say they are for equality but are not feminists. But isn't the very definition of feminism to promote equality between the sexes?

The word feminism has been victim of denigration campaigns throughout times.

ON UNPAID CARE WORK

Many are not aware of the unequal share of unpaid care work. Awareness is essential if situation is to change.

Crucial to educate next generation!

ABOUT KARINE LAMBERT

Karine is a Historian, Assistant Professor at the University of Nice, Manager of teams at GeFem (Gender Women Mediterranean) and Vice-President of RuseMeg.
